REPORT OF SUPERINTENDENT OF SCHOOLS

The schools have been furnished necessary supplies and equipment as the inventory required. A more practical plan for the coming year will be to have three separate storage units for supplies in order to make it easier for all teachers to have the materials they need when they need them. It will also provide for a better check on the inventory. Of necessity we must spend a specific amount of money for each child in order for the town to receive state aid; we plan each year to spend about that much for schools.

I would like to recommend for your consideration the unification of the schools in one building with a multipurpose room where they can have music plays and social events, etc. The children

will be better educated because each teacher will have only two grades instead of the present four, five and eight grades. The time for each class will increase. Each teacher's load will be more reasonable. The securing of teachers will be even more difficult next year and it will be difficult to replace any one of the teachers that may leave.

The enrollment is as follows:

	Grades	1	2	3	4	5	6	7	8
C. E. Ross School	11	8	4	10	5	14	10	2	
Center School	2	8	7	1	9	0	0	0	
Hanksville	5	3	4	3	2	2	1	1	

I would like to express my thanks to the teachers, parents and hot lunch sponsors and workers this year again for their cooperation.

Respectfully submitted,

GEORGE WM. BOUNTRESS,
Superintendent of Schools.

YOUR PUBLIC HEALTH NURSING SERVICE

During 1954 the Vermont Health Department has offered the same type of Public Health Nursing Service which has been available since 1951. The Public Health Nurse for Huntington is Mrs. Florence Shea who has her office in Essex Junction.

Fifty-two visits were made to mothers and babies. This service is available to all the mothers and babies, but especially to mothers having their first baby or any special problems.

Forty-four visits were made to pre-school and school children for follow-up of defects noted at the Conference, or brought to the attention of the nurse when she made visits to the schools.

Twenty-two visits were made for the nursing control of communicable diseases.

Seventy-seven visits were made for general family health supervision. This service includes the follow-up of heart disease, cancer, crippled children and mental hygiene.

Two Medical Conferences for infants and pre-school children were held in April and 33 children were examined by Dr. Fuller. Eleven children received vaccinations against smallpox, and 26 received protective immunization against diphtheria, whooping cough and tetanus.

The number of children with defective teeth would certainly point out the need of a dental program in Huntington. Some of the children are receiving vitamin A and D capsules. All children need these vitamins in addition to their diet.

Some type of hot lunch program would be beneficial to the school children especially to those who have to leave home so early in the morning to ride on the bus.

Eight children in grade two received the Salk Vaccine at the Polio Field Trial in Richmond, and three children gave blood samples.

Only by good leadership and cooperation in the entire community can there be a good health program. The people who have been of assistance in promoting better health are to be commended.

Respectfully submitted,

HORTENSE L. HARWOOD, R.N.,
Public Health Nursing Supervisor.

HEALTH OFFICER'S REPORT

For the year ending December 31st I am submitting my annual report to the Selectmen of the Town of Huntington regarding the sanitary conditions and public health in general.

Health Conditions:

In general the health of the town has been very good, except a few deaths among the elderly people.

Reporting Contagious Diseases to Health Officer:

The people of Huntington still fail to report contagious diseases. This causes a financial loss to the town as I have explained in my reports in the past few years. As there is no quarantine at the present time for these diseases there should be more cooperation along this line.

School Clinics:

During the year that clinics were held a goodly number of school and pre-school children were vaccinated for smallpox and given immunization for protection against diphtheria and tetanus.

Care of Rubbish and Trash:

A State and Town movement is under way to stop dumping rubbish and trash by the side of the roads and streams. All people should assist in helping to carry forward this project. Every town should have a well-cared-for dump with this in view.

Report of Contagious Diseases:

There were no deaths from these diseases and only those listed below were reported to the health officer.

Measles 2

The expense involved for the Health Department was \$12.30.

Respectfully submitted,

WM. O. HUTCHINSON, M.D.,
Health Officer.

REPORT OF THE HUNTINGTON VOLUNTEER FIRE DEPARTMENT

For the Fiscal Year Dec. 1, 1953 to Nov. 30, 1954

The department answered 17 calls during the year.

On September 1, 1953 we received the money voted by the town—\$300.00. This money was spent as follows:

Accident insurance	\$ 75.00
Battery and cables	15.18
Motor vehicle registration	2.00
Heating oil during winter	129.31
Liability and fire insurance	71.03
Vt. Civil Defense for hose	67.94
Total	<hr/> \$ 360.46

\$60.46 was paid by money raised by the department.

Respectfully submitted,

ROY B. CLEVELAND,
Chief.

WARNING

TOWN AND SCHOOL DISTRICT MEETING

MARCH 1, 1955

To the legal voters of the Town of Huntington, you are hereby notified and warned to meet at the Town Hall in Huntington Center at 10 o'clock in the forenoon on the 1st day of March, A.D. 1955, to transact the following business to wit:

1. To elect a Moderator.
